Introduction

I build Business WordPress Websites and E-Commerce WordPress WooCommerce Websites. I also provide Technical Support, Web Hosting Services, and IT Consultancy. I am able to build websites with Shopify too.

Most of my work comes from partnerships with other companies. I'm looking to take on more Joint Venture's (JVs) and increase the amount of work I have coming in.

Ideally, what usually happens is I provide a quote for the website or service, the company I am working with bills the client, and I then invoice the company for 70%. The company who get the sale for me takes 30%. This is negotiable though, and is flexible.

I have other partnerships where I am paid the full amount for my website quote but the company who get me the work charge extra on top to the client to make more profit.

A combination of any of these scenarios above will ideally be win-win for all involved. And the business partner can sell on their services too, to create great packages for their clients.

I'm looking to take on more E-Commerce WordPress Websites, as they tend to be quite high ticket, so myself and the business partner make more money from each sale.

I have capacity for 10-15 websites per month. My goal is to be back to back with work, so I can earn to the maximum of my potential.

Further down the line my goal is to employ many other freelancers who can do a lot of the work for me, turning me into a highly profitable business whilst giving me more free time to work on extra things.

In this document I have provided a detailed version of my CV, which you can use for reference for me and my work.

I'm a passionate, dedicated tech entrepreneur that cares about doing a good job and giving great customer service. My main goal is happy clients and happy business partners.

I can and will provide further information on all of my services to you so you can see everything that is involved. I'm hoping a lot of this will be of interest to you.

Personal Details

Eligible to work in the UK: Yes

Highest Level of Education: Bachelor's

Industry: IT Operations & Helpdesk, Technology, Websites

Awards

Course Representative of the Term - Best Team 2012/13 February 2013

During my first term as a Computer Science Course Representative at the University of Leicester, the team I lead won the award Course Representative of the Term: Best Team. I lead the team and we all worked very well together. We gained a lot of respect and recognition from the University of Leicester Students' Union.

Course Representative Accreditation - Gold Award 2012/13 June 2013

I won the award Course Representative Accreditation - Gold Award, for my work as a Computer Science Course Representative at the University of Leicester. This was the highest accreditation you can achieve.

Student Awards 2013: Course Representative - Best Innovation 2013 June 2013

I won the award Course Representative - Best Innovation 2013 at the University of Leicester Student Awards 2013. I won this due to how I innovated the way I would do tasks set out during the year. I gained a lot of recognition by the University and the Students' Union. To stand out for innovation, I feel is very important in the IT industry.

Student Awards 2013: Nominated for Course Representative of the Year 2013 June 2013

I was nominated for the award Course Representative of the Year 2013 at the University of Leicester Student Awards 2013. Although I did not win, it was an honour to have been nominated. Seeing all my hard work pay off was appreciated.

The Leicester Award: Leadership and Management July 2015

I took an extra course called The Leicester Award: Leadership and Management at the University of Leicester to help improve my leadership and management skills. I attended a number of sessions, teaching me a variety of skills. I successfully completed and passed the award.

The Leicester Award Gold: Business Insight March 2015

I took an extra course called The Leicester Award Gold: Business Insight at the University of Leicester to help improve my business skills. I attended several sessions, teaching me a variety of skills. I successfully completed and passed the award.

The Leicester Award Gold: Future Leaders
January 2016

I took an extra course called The Leicester Award Gold: Future Leaders at the University of Leicester to help improve my leadership skills further. I attended several sessions, teaching me a variety of skills. I successfully completed and passed the award.

MASS - Member of the Year 2015
June 2015

I won the national award MASS Member of the Year 2015 due to my hard work and dedication to the MASS society throughout my time as a member at the University of Leicester. I was happy to receive appreciation for my dedication and hard work.

MASS - Gold Accreditation 2016/17
January 2017

MASS were awarded the highest level of accreditation by the University of Leicester Students' Union, during my time as President. Only ten societies within the whole university achieved this. One of the reasons we got this was due to my own personal level of commitment and dedication. I'm very proud of my work within MASS. It was great to be a part of the society and I really grew as a professional and a person.

MASS - Nominated for Sports Society of the Year 2017
May 2017

MASS were shortlisted for University of Leicester Sports Society of the Year 2017. I was very happy about this as I was the President of the society at the time. We worked hard all year as a team and as a committee to achieve this.

CULN Scholarship
October 2012

I was awarded the CULN Scholarship when I graduated from Leicester College and went on to study at the University of Leicester. The CULN Scholarship is awarded to 100 of the most deserving students entering the University of Leicester from local colleges that are members of CULN.

National Scholarship
October 2012

The National Scholarship is awarded to the best and most deserving students going to university. I receive £2000 off my tuition fees each year, and £1000 cash. Receiving this scholarship was a huge achievement for me. I feel it really shows my skills and ability.

Undergraduate Scholarship
October 2012

I received the University of Leicester Undergraduate Scholarship. This is awarded to University of Leicester students who achieve extremely high grades from college before coming to university. To receive this from the university itself was of great pride to me.

Certifications and Licenses

CompTIA A+

CompTIA A+ validates understanding of the most common hardware and software technologies in business and certifies the skills necessary to support complex IT infrastructures.

1. Security
2. Networking
3. Operating Systems
4. IT Operations
5. Troubleshooting
6. Technical Support

CompTIA Network+

CompTIA Network+ is a vendor neutral networking certification that is trusted around the world. It validates the essential knowledge and skills needed to confidently design, configure, manage and troubleshoot any wired and wireless networks.

1. Network Technologies
2. Network Media and Topologies
3. Network Device
4. Network Management
5. Network Tools
6. Network Security

CompTIA Security+

CompTIA Security+ is the certification globally trusted to validate foundational, vendor-neutral IT security knowledge and skills. As a benchmark for best practices in IT security, this certification covers the essential principles for network security.

1. Network Security

Facebook Certified Digital Marketing Associates understand the value that advertising on Facebook technologies can deliver for businesses and they can use foundational tools to build campaigns.

1. The Value of Facebook
2. Establish Platform Presence
3. Create and Manage Ads
4. Change Control and Communication
5. Reporting

Volunteer Experience

During my time in full-time education, I got involved in several voluntary positions to aid in my professional and personal development. I achieved a lot in these roles, which have benefited me and my career. I have listed the roles below.

College of Science and Engineering Representative University of Leicester Students' Union January 2013 to July 2013

I was elected as the College of Science and Engineering Representative at the University of Leicester. There are only four colleges within my university and only one Student Representative per college. I was elected by students throughout the College of Science and Engineering.

Computer Science Course Representative University of Leicester Students' Union October 2012 to July 2013

I was elected as a Course Representative for my Computer Science course. I was elected by students within my year who took some form of Computer Science course within the Department of Computer Science. I put a lot of effort and dedication into my role, which led to me getting elected as the College of Science and Engineering Representative and winning a number of awards.

President
MASS UniFitness (University of Leicester)
October 2016 to July 2017

I was elected as President for a well-known and highly respected society at my university called MASS. I have worked hard on this and due to my dedication and hard work, we got the highest level of accreditation by our Students' Union (Gold) and were shortlisted for Sports Society of the Year 2017.

Secretary
MASS UniFitness (University of Leicester)
May 2015 to September 2016

I was elected as Secretary for a well-known and highly respected society at my university called MASS. I have worked hard on this and due to my dedication and hard work, I won the award MASS Member of the Year. This was a national award for MASS societies all around the country.

BTEC IT Course Representative
Leicester College
September 2011 to June 2012

I was approached by the head of department Wayne Taylor at Leicester College to become the BTEC IT Course Representative. I worked hard in this role, and it was great experience.

Testimonials

During my time working in freelance tech support & wordpress web development, I have received some glowing testimonials from my clients. I have listed eleven of them below.

Ingrid Dean, Together Bridal

"I would like to say a massive thank you to Paul Wilson who designed my website for together bridal. Nothing was any trouble; the professionalism was outstanding.

The website is stunning eye catching, easy to navigate, making my business stand out from my competitors.

As I already chose my hosting company there was some up and downs but nothing Pauls technical skills could not sort for me liaising directly with the hosting company to achieve results.

I would always recommend Paul and do to anyone who wants a website."

Carl Reynolds, Aqua Bathrooms

"I would like to thank Paul Wilson and Jessen James for the outstanding website that was done by them. Now, I have a website to be proud of, and everyone who sees it always says it's fantastic. I will be using them again on all my up-and-coming projects. Thank you again."

Ree Mohabeer, ReeAnimate

"Paul is a wizard! He has taken my sites, my different flows and helped automate things to make my life easier and give me back my time.

Not only has he increased the efficiency of the business by 50% he has created some very professional websites and membership sites for my clients.

Paul is now the go-to guy for me and now I don't need to waste time with anyone else."

Vicky Whiteland, The Face Angel

"Paul went above and beyond when designing my website, I had no clue what it was I needed, and Paul listened and understood perfectly what would work best for my industry.

I am the least computer savvy person in the world so when I struggled with anything, I would message Paul and he would get straight back to me with the directions for what I had to do.

My website is perfect and I love it, I have had so many compliments. I cannot thank you for all that you have done.

I would highly recommend Paul, especially. Thank you again."

Corinna Stringer, Wings of Success Coach

"I started working with Paul last month as I needed a website for my coaching business, trying to do it myself was costing me far too much time and effort and I needed it to look professional.

We had our initial meeting over zoom within just a few days of me signing up to get an understanding of my brand and my business. After sending over some information and photos Paul promptly got to work on my website and the result was amazing.

I have had so many comments about it, how clean, easy to navigate and how professional it looks.

Paul even worked especially hard as I landed myself a great speaking opportunity and needed the site to be ready a few days earlier than expected. His service went above and beyond and to my amazement the website was ready in time before my presentation.

I would like to thank Paul for all the hard work and professionalism.

If you are thinking of getting a website, I would highly recommend Paul and his team you will not be disappointed."

Lenny Ogun, OgunPro Event Filming

“I’m glad I decided to use Paul Wilson’s services in creating my website. My site before I met Paul wasn’t great to say the least, he assured me he would be able to create a professional and easy to use website for my business and he did and even over delivered.

The process in putting together was smooth and after it was done, Paul provided some tech support helping me understand how to update a page if needed.

Great service and I fully recommend him for your website.”

Rob Spence, Paragon Sales Solutions

“I opted to use Paul and Insane Tech as I knew their knowledge and motivation were second to none. I had originally tried to build my own website but quickly grew frustrated at the complexity of it all. The second I had a conversation with Paul, I was at ease.

He took over straight away and whilst listening to my requirements, he used his own expertise to craft a website that was fit for purpose, and yet was still easy for me to tweak and to adapt the blog too!

Paul is now helping to develop my second website and I could not recommend him further.”

James Tutty, James T Property

“Paul kindly created a new website for my business James T Property Ltd that had a number of specific requirements, and his knowledge and skill was able to work with them.

He has also provided on going technical support for when I wish to make changes to the website. He has designed a very professional looking website, linked to all my social media and I wouldn’t hesitate to recommend him in future.

Thank you, Paul!”

Jaysen Mohur, PlanetFX

“We had a simple landing page site that i tried to make, hired a load of overseas virtual assistants to do, but all it did was delay my business and lost me new business.

Thankfully Paul came in, fixed the previous mess and made an amazing site which is much faster than the previous one.”

Sal Prasad, Sal's Hypnotherapy Treatment

"I just want to say thank you for helping us with all your tech support and building the website for us.

I would highly recommend anyone who is reading this who needs a website or any tech support to get in touch with Paul.

You will not be disappointed and he is really knowledgeable, ready and willing to help anyone."

Julian Wright, Linwood Apps

"I am very pleased with the website that Paul has built for me, both visually and operationally.

He continues to maintain the site in his usual professional manner - effectively and responsively.

I have no hesitation in recommending his services."

Website Portfolio

Below are a handful of the websites I have built recently. I can build all kinds of websites for most niches. I also build E-Commerce and Membership sites.
